45 45 61 57

THE POTATO BUG is in a condition of despondency from late rains and slow vegetation.

The State Medical Society holds its annual meeting at Morgantown on the 27th inst.

OLD HENS are better for sick people than spring chickens, because they are said to lay better.

FRUIT KILLED.—We understand that the recent heavy frosts have killed the fruit in this vicinity.

THE registered letter business has doubled since the reduction, January last, from fifteen to eight cents.

DURING the month of April City Sergeant Davis collected fines amounting to \$327.05. The fines unpaid amount to \$203.

POLICE COURT.—There were no cases before the police court yesterday morning. The Wednesday morning session was large enough for the entire week.

ADMINISTRATRIX APPOINTED.—In the Circuit Court yesterday Anna Maria Stein was appointed Administratrix of the estate of Joseph Stein, deceased. Bond, \$500.

HISTORICAL SOCIETY.—Dr. J. C. Hupp, of this city, has been requested to prepare a paper to read before the Historical Society which meets at Morgantown on the 25th inst.

MARTIN'S FERRY is unhappy because no gypsies have yet unfurled their tents within its limits—a la Bridgeport. The organ grinder came to their relief, but it is not enough.

THE pugilistic reporter of a contemporary attempted to bribe the Wheeling baseballists at Little Washington on Wednesday not to furnish the morning papers with a report of their excursion.

SELEOT HOV.—Quite a large number of our young people enjoyed a private dancing party at Charley Behler's last evening. The affair was of course a success in every particular.

DRINKING LIVE.—Yesterday morning a little child of Thomas Conaway, who resides in Bridgeport, drank some live from a cup left within its reach. Emetics and sweet oil were promptly applied, and the little one is now doing well.

DISRUPTING THE TRACK.—Squire Caldwell on Wednesday evening issued a warrant for the arrest of Dick Johnson, who is charged by Henry Grass with a disturbance of the peace. The case will probably be examined to-morrow.

CITY SHERIFF'S REPORT.—The report of the City Sergeant for the month of April shows that there were eighty-two arrests made during the month. Of these twenty-four were for drunkenness; five were for assault; two for selling liquor on Sunday, and the remainder for petty offences.

N'ALMOST A FIRE.—About 11 o'clock last night a small fire was discovered in the rear of the Stamm House, and promptly extinguished. A bucket of ashes, in which were some live coals, and lighting combustible material at hand, soon produced an incipient fire. The fortunate discovery of the flames doubtless prevented something of a conflagration.

MEETING OF THE BIBLE SOCIETY.—A special meeting of the Wheeling and Ohio County Bible Society was held in the Lecture Room of the First Presbyterian Church last evening, which was led in prayer by Rev. Daniel Williams, of the Fourth Presbyterian Church. The following members were present: Rev. D. W. Fisher, R. Crangle, W. H. Oxtoby, John Balke, M. W. Miller, A. G. Robinson, Rev. James Moffat, Rev. D. Williams, G. L. Cranmer.

The minutes of the last meeting were read and approved.

A letter was read from the District Superintendent of West Virginia, W. R. White, Esq., setting forth the great need of the Bible in the interior counties of the State. It was resolved to take up a special collection for this object at the Anniversary Meeting to be held in June.

The Committee on Collections reported that they had definitely arranged with a number of Pastors of the city to have collections taken up in their churches for the Bible cause at an early date, and it was expected that within a week all the ministers of the city will have been requested to take similar action.

The Committee on Anniversary reported progress, and stated that the Anniversary Meeting would be held some time in June, when a number of eminent speakers from abroad are expected to be present.

The Committee on Constitution reported that they expected to be able at the next meeting to present the revised Constitution.

Adjourned with prayer by Rev. James Moffat.

THAT BASE BALL MATCH.—We have received the following communication concerning the base ball match at Little Washington on Wednesday, which, although the writer does not give his name, we publish cheerfully:

In your morning issue you spoke of the young men who met their defeat at the hands of the college boys at Washington, the players who composed the "Wheeling Nine" are equally as good if not better than their opponents there was two or three players on our team that are far better than any of the college boys.

We will give them another chance and then if we are beaten we will talk about giving B. B. up and take to playing some other game.

"Breakfast" does not take to our advice kindly. We only made a friendly suggestion. No better game of base ball was ever played—the only unpleasant feature of it being that the Wheeling boys were badly beaten. Then we should take a high moral position, and denounce base ball. This is our policy. There are enough strictly moral and refined games that we can play with anybody on earth. We can show some lively play in the line of cat's-cradle, in the complications of Copenhagen, the oscillations of ring-around-rosy, and the sprightly and humorous remark which Simon makes respecting the attitude of the human thumbs. Let us devote our undivided attention to intellectual games.

NOT QUITE SO GUSHING.—The following letter, received in this city, is not quite so gushing as the one published in our columns a few days since. Evidently the writer had not proceeded further than the premonitory symptoms of the disease but we copy:

SUNSHINE, Ohio August the 3 1873
Miss, Mollie, Scott, My Respected friend
I see my self this morning to drop you a few lines to know if my company would be excepted if I would come out to your house and spend the evening with you I consist with your will and I do not you can drop me a few lines to sunfish and let me know an answer will be very much to me just to see you think about this I will just level to your little self to decide to suit yourself about this as you can see I am plane about this as we was that day that I was out at your house and speaking about Mr. ridded the preacher well I will close for this time please excuse all bad writing and spelling your friend Ever the same ritson and let me know yes or now that is a time it taken in time

good buy to you yours truly from S B White to Miss Mollie Scott.

THE HOBBS-PANTHER COLLISION.—The local inspectors of this port have made a report to Mr. Holliday, Surveyor of Customs, of their examination of the pilots of the towboats Ed. Hobbs and Panther, which collided at Benwood some time ago. They think there was "no violation of law, and no infringement of any rule or regulation laid down for the government of pilots." They also add: "By properly leaving what is best to be done under such circumstances to their own judgment, believing they so acted, and believing this to be one of those unavoidable accidents which is likely to occur under the wisest regulations, we do hereby exonerate them from blame."

TEMPERANCE MEETING.—Washington Hall was well filled last evening with Temperance people. The meeting was addressed by Mr. John S. Willets, "the boy orator." Mr. Willets is a true orator, and has achieved some reputation as an eloquent speaker. His address commanded the closest attention of the large audience, and was frequently warmly applauded, despite the rules to the contrary. We congratulate Mr. Willets on his successful effort in the temperance cause.

ACCIDENT AT THE LA BELLE.—About 6 o'clock last evening the engine at the La Belle Mill "ran off," and made things pretty lively for a time. The fly-wheel was thrown down and broken to fragments, and considerable other mischief done. We understand that the mill machines were thrown off to soon, and there being considerable steam on at the time, the sudden release caused the accident.

STATE NORMAL INSTITUTE.—We learn that Prof. W. H. Morton, of the Female College, has been invited by State Superintendent Byrne to take charge of the Normal Institute, to be held at Parkersburg, commencing June 29. We doubt whether a better selection could have been made, as the Professor is eminently and peculiarly qualified to discharge the duties which will devolve upon him.

THE SEWER on the corner of Chapline and 23d streets, Eighth Ward, is completely filled with an accumulation of filth, which smells to heaven. This sewer has not been cleaned out since last summer, and in its present condition is sufficient to infect the entire neighborhood. It should be attended to.

CITY AND COUNTY ASSESSMENTS.—The City and County Assessors are busy engaged just now in making the usual assessments for 1874. We understand that the work, so far as completed, shows a decided increase over last year.

A SENSATION SPOILED.—Yesterday week M. Tyson brought suit before Squire Gillespie against J. L. Bumbadger to recover \$16 for boarding Hattie Rodgers at Elm Grove. The examination of this case was continued until yesterday at 10 A. M., at which time Mrs. Tyson, Hattie Rodgers and Bumbadger were present, and judgment was rendered for \$8 and costs. After the trial the three left the Squire's office together, and all appearances in good humor, and well satisfied with the verdict.

About 10 o'clock last night Bumbadger appeared at the jail and desired to be locked up, saying that he had shot and killed Hattie Rodgers up Caldwell's Run. Officer Wilcox took charge of him and escorted him to Squire Gillespie's office. A small pistol was found in his possession.

Inquiry was made for Hattie on the Island, where she lives at service, but she had not been heard of since morning. Officers Exley and Jenkins were then dispatched to Caldwell's Run in a buggy to ascertain the truth of Bumbadger's statement. They went to Tyson's house, about a mile up the Run, where they found the girl and brought her with them to the Squire's office about 1 o'clock this morning. She stated that Bumbadger had shot at her, but had only slightly scraped her arm. Bumbadger was very much intoxicated, and his statement was not credited, but it was thought best to investigate the matter.

Upon Hattie's arrival at the Squire's office several little endearing scenes occurred, as usual after a lover's quarrel. He was dismissed from custody, and declining to ride home in a buggy, Hattie accompanied him, whither, we know not.

SCIENTIFIC EXPERIMENTS.—Professor Meritt and Mr. Chas. Dwight will give a series of scientific experiments for the benefit of the pupils of the Female College, at the College Hall, this evening. The exhibition will be free, and the friends of the College, of science, or the young ladies, are alike invited to be present. This broad invitation and the interesting and profitable character of the entertainment will certainly attract a good audience.

We might say in this connection that the gentlemen named have already acquired a high reputation for their scientific attainments, and Wheeling can boast of her home scientists as well as other celebrities.

THE SUPERIOR.—We are pleased to learn that the demand for the Superior Mowers and Reapers during the present season has exceeded the largest expectation of the proprietors. They have sold up to the present time fifteen hundred machines. They have three hundred in course of construction, and have orders on their books sufficient to take them all. The probabilities are that they will wind up the season with but very few machines to carry over to next year.

PERSONALS.—Mr. Robert McElwain, former ticket agent of the B. & O. Railroad in this city, is stopping at the St. James Hotel.

Mr. B. C. Dick, well known as an insurance agent here, is expecting to go West and settle in San Francisco.

Wm. H. Woodward, Esq., and family, returned home from Alabama a few days since, where they have spent the winter very pleasantly.

Dr. F. Bundaboo, of Steubenville, was stopping at the Stamm House yesterday.

REPAIRING THE WHARF.—About a dozen men are now engaged in making some long needed repairs at the wharf. The condition of the wharf during the winter has been a disgrace to a civilized city. In inclement weather it has been in many places almost impassable to the many teams doing business in the locality. These repairs will be hailed by many as a wise and judicious expenditure of the city's money.

AN ACCIDENT.—Returning from a funeral at Mount Wood Cemetery and just in the neighborhood of the Jewish Cemetery, one of Christmas and Debold's backs, with its load of passengers, was precipitated over the bank. The horses were thrown down and the back, fortunately, without upsetting, slid down against the fence. Except the cutting of a portion of the harness in order to extricate the horses, no injury resulted.

CIRCUIT COURT.—In this Court yesterday business was disposed of as follows: The case of Mrs. Ann E. House vs. Richard Brown, Sheriff, was submitted to the Court.

A rule was issued against Wm. H. Sheib, an absent witness in the above case.

The case of Wm. vs. Basher & Walter was taken up for trial.

BROOME & BENEDICT.—Mr. Louis Dickman, an employee in the INTELLIGENCER bindery, was last evening at the German Lutheran Church united in marriage to Miss Hannah E. Franz, of this city. Rev. J. E. Werder officiated. After the ceremony the happy couple and guests adjourned to the Beethoven Hall, where they enjoyed themselves with vocal and instrumental music, dancing, and an abundance of good things.

NEWS PUBLISHING.—Some fellow without the fear of the law or a due regard for the fourth commandment surreptitiously possesses himself of our friend Gus Pollock's paper. If the individual really hungers for information Mr. P. will furnish him the paper for a season provided he abstains from further depredations on his morning rations.

GONE TO GRAPTON AND DEER PARK.—Mr. T. H. Higgins, the excellent photographer of this city, has been employed by the B. & O. R. R. to make some views of their property at the above mentioned places. The company has made a good selection in securing his services. Mr. H. left the city last evening and will be gone until Saturday.

FRESH PAINT.—The exterior of the Opera House entrance is receiving a fresh coat of white paint. During the fall in amusements, the painters are busy about the Opera House, graining and painting both inside and outside. When thoroughly completed, we shall have one of the most beautiful little places of amusement to be seen in the States.

A FAMILY QUARREL.—Robert Milligan went before Squire Schultz yesterday and complained that Frank Ward and wife, who reside in the "Belmont settlement," had made Wednesday night hideous with their domestic tribulations. Warrants were issued for Frank and his better half.

RIVER NEWS.

The river was falling slowly last evening, with 15 feet in the channel.

The R. W. Skillenger arrived from Pittsburgh and departed for Cincinnati at 8 o'clock yesterday morning. She added to her freight 1,000 kegs of nails which she got at the Riveride Mill. She takes

the nails to Cincinnati at five cents per keg.

The Malle Ragan departed for Pittsburgh at 9 A. M. She took an immense trip.

The Courier departed for Parkersburg at 10:30 A. M. with a very fair trip.

The Express leaves for Parkersburg at 11 A. M. to-day.

The N. J. Bigley No. 2 made the run from Pittsburgh to Louisville with two coal boats, six barges and two fuel boats, in three days and four hours.

A good many steamboatsmen are interested in the following, which we glean from an Eastern paper: Payments of Farragut prize-money commence June 1st. The claims are paid by orders on Navy Paymasters, and no agent is permitted to charge more than ten per cent.

[By Telegraph.]

EVANSVILLE, May 7.—Weather clear. Mercury 52 to 69. River has fallen 18 inches, with 80 feet and 8 inches in the channel. Up—Idell, Geo. Roberts, T. N. Miller, John Gilmore and Pearlman. Down—Mary Ament, Pat Rogers, Smoky City, Morning Star and N. J. Bigley. Steamers light.

CAIRO, May 7.—Arrived—Cleburn, Evansville, Keystone, Ohio river; Bismarck, St. Louis; Cooke, Nashville; Storm No. 3, St. Louis; will be departed—Storm No. 3, Ohio river. River 45 feet; risen 1 inch. Weather clear. Mercury 73.

While the Keystone was landing her barge, one of them struck the starboard wheel house of the Pat Cleburn, breaking the galleys frame and damaging the wheel. So the boat will probably have to return to Evansville on one wheel.
